

## LABORATORY EQUIPMENT

- Atomic absorption Spectrophotometer (AAS) with graphite furnace
- Analyte 16, AAS with Hydride generation system
- Automated Sample Preparation and Mercury Analyzer
- Conductivity/TDS Meter, pH Meter, DO Meter, Turbidimeter
- Flame Photometer
- Flow Injection Analyzer System (Nutrient Analyzer)
- Flow Injection Mercury System
- Gas Chromatograph (GC) with electron capture detector (ECD) and flame ionization detector (FID)
- GC for Volatile Organic Compounds (VOCs) with electrolytic conductivity detector (ELCD), photo ionization detector (PID), flame photometric detector (FPD)
- GC with Mass Spectrometer
- High Pressure Liquid Chromatograph
- Ion Chromatograph with conductivity and absorbance detector (non-suppressor)
- Ion Chromatograph with Autogeneration Chemical Suppression
- Mercury Analyzer
- Microwave Digestion System
- Microwave Extraction System
- Noise Meter
- Oil Content Analyzer
- Organic Halide Analyzer
- Orsat Gas Analyzer
- Particle Size Analyzer
- Specific Ion Meter
- Spectrofluorophotometer
- Tecator Digestion System
- Total Organic Carbon Analyzer
- UV-VIS Spectrophotometer
