

EMB.GOV.PH is getting a revamp!

We are excited to announce the launch of the Environmental Management Bureau's redesigned website [www.emb.gov.ph](http://www.emb.gov.ph) to be rolled out on July 31, 2020. Aside from information updates, the EMB website is also faster, easier to navigate and more user-friendly. Check out the following features:

### 1. Quick Access

The new EMB Navigation Bar will help you find what you need in one-click. Access our different programs and apply online permitting applications through the Services section.

### 2. E-Library Update

From Publications, to Quality Status Reports, to Infographics, this is the one-stop-shop for your research needs. If you are from the academe, local government unit, or private sector, feel free to download and reprint our materials for your own environmental awareness campaign. We also updated our database with COVID19-relevant infographics such as Proper Medical Waste Disposal and Eco-friendly Ideas You Can Do at Home.

### 3. Online Appointment Scheduler - BETA

We value your safety and we endeavor to provide our partners and clients with quality service. Use our new EMB Online Appointment Scheduler to set a meeting with your preferred EMB Program technical expert.

4. **EMB Stats Dashboard - BETA**

View EMB's Data at a glance from Special Environmental Events Conducted, National and Regional Winners of Eco-friendly and Sustainable Schools in the Philippines to Air Shed Policy Issuances, Number of Permits Issued, and DENR Recognized Laboratories. This feature centralizes EMB's data for an interactive means of monitoring, measuring and analyzing reports.

5. **Online Permitting Service**

The Online Permitting Service also has a new look. Easily find your needed permit through our color-coded section. Orange for Hazardous Waste Permits, blue for CNC/ECC and Monitoring Reports, olive green for PCB Online, and moss green for OPMS applications such as PTO, COC, WWDP, etc.

6. **EMB in the Regions**

Be updated with EMB all over the Philippines through our EMB in the Regions section. Download localized IEC materials and find out the different programs and events that the EMB Regional Offices are conducting. Interested to join? You may access the EMB Regional Offices Directory through the About Us section in the Navigation Bar.

7. **Social Media Integration**

Among the new features of the site is the integration of social media buttons for Facebook and Youtube to foster improved communication with our clients. Connect with us on either platforms to be updated with environmental content through your smart phones.

The official launch will be on July 31, 2020 and we'll be continuing to improve the content and upgrading the features that are in BETA mode throughout our rollouts this year. We'd like to hear what you think about the new look of our site. Let us know through our official EMB Facebook Page or use the Feedback feature on the website.
