Section 1. Policy and Objectives. It is the policy of the State to pursue economic growth in a manner consistent with the protection, preservation and revival of the quality of our fresh, brackish and marine waters. Pursuant to this policy statement, the Jalaur River System shall be managed, consistent with the following water quality management objectives:

Barbara, and Zarraga, as a source of water for irrigation and other agricultural use, and serve the best interest of communities and stakeholders;
- b) To formulate a WQMA program, which recognizes issues that are inherently related or cannot be detached from the concerns on water resources, ecological protection, water supply, public health, and quality of life;
- c) To encourage, support, and mobilize civil society organizations and other sectors such as the academe and business, engaged in environment-related activities, in efforts to organize and educate people in addressing pertinent environmental issues and problems in the WQMA;
- d) To promote inter-LGU and stakeholder collaboration and cooperation through coordinated efforts in protecting and sustaining acceptable quality of water in the Jalaur River System; and
- e) To harness locally available resources for the rehabilitation and protection of Jalaur River System.
