DENR Environmental Laboratory Recognition (ELR) Scheme

Monitoring and reassessment

According to DAO 63, section 04f, after the laboratory has been issued a Certificate of Recognition, the EMB, in coordination with its Regional Offices, shall conduct Monitoring and Reassessment of the laboratory within the period of effectivity of the Certificate. This is to ensure that the laboratory continues to comply with the requirements.

The LIAT for monitoring and reassessment activities is composed of, at a minimum, two EMB Central Office Assessors and one EMB Regional Office Assessor. The areas that are checked during the monitoring and reassessment are similar to those for Level 2, but in addition, focus is given on analytical techniques, QA/QC, PT results and verification on the corrective actions submitted for previous assessment findings.
